

Learning

- How to learn to use a computer-based application
- Using a computer-based application or YouTube video to understand a given topic
- People find it hard to learn by following instructions in a manual
 - prefer to learn by doing

Cognitive prosthetic devices

- We rely more and more on the internet and smartphones to look things up
- Cognitive resource cf. extended mind
- Expecting to have internet access reduces the need and extent to which we remember
- Also enhances our memory for knowing where to find it online (Sparrow et al,2011)
- What are implications for designing technologies to support *how* people will learn, and *what* they learn?

Design implications

- Design interfaces that encourage exploration
- Design interfaces that constrain and guide learners
- Dynamically linking concepts and representations can facilitate the learning of complex material
