

Pattern Mining: Concepts and Typical Methods

- ❑ Basic Concepts
- ❑ Frequent Itemset Mining Methods
- ❑ Which Patterns Are Interesting?—Pattern Evaluation Methods
- ❑ Mining Various Kinds of Patterns
- ❑ Summary

How to Judge if a Rule/Pattern Is Interesting?

- ❑ Pattern-mining will generate a large set of patterns/rules
 - ❑ Not all the generated patterns/rules are interesting
- ❑ Interestingness measures: Objective vs. subjective
 - ❑ Objective interestingness measures
 - ❑ Support, confidence, correlation, ...
 - ❑ Subjective interestingness measures:
 - ❑ Different users may judge interestingness differently
 - ❑ Let a user specify
 - ❑ Query-based: Relevant to a user's particular request
 - ❑ Judge against one's knowledge-base
 - ❑ unexpected, freshness, timeliness
